Vol. 6.]

RICHMOND, FRIDAY, NOVEMBER 10, 1809.

[No. 53.]

**A TIMELY REQUEST.**  
SUBSCRIBERS to the ENQUIRER, in this State, and those who are indebted to this office, for printing, &c. are informed, that the Editor expects to receive his respective demands by the hands of their Delegates to the ensuing Legislature—who are requested to oblige him in this respect.  
November 7. w3w

**ROBERT GREENHOW,**  
MERCHANT, in Williamsburg, will dispose of the valuable and most eligible situated TENEMENT, on which he now resides, in this city, at a credit of one, two, three & four years; bonds with approved security, to be given by the purchaser, bearing interest from their dates, until paid: Or he will receive in exchange improved or unimproved LOTS, in and about the city of Richmond, at an agreed price.

All the advantages attached to this property, cannot well be described in an advertisement.—They are left to be judged of by those inclined to treat with him—suffice it, however, to say, that the dwelling-house is roomy and spacious, that it has every convenient out house, necessary for those moving in the genteel sphere; with a newly erected store, for mercantile purposes; that it is situated on the south side of the main street, in the centre of the city; distant from the court-house, market and church, 4 or 500 yards, that its front is open on the right and left, to two spacious public squares, at once adding to the prospect, and giving free circulation to the air: That the whole tenement is in a complete and perfect state of repair; and that the buildings stand insured against fire, by the Mutual Insurance Company, in Richmond: The premises, quotas, &c. all duly settled up to the 1st of April last. To add to the convenience of such as may be inclined to possess this property, an acre of ground laid down in Clover, about 200 yards from his house, also, on the main street, and a tract of land, containing between 90 and 100 acres, covered with oak, hickory and pine, 3 1/2 miles from the town, yielding an inexhaustible supply of fuel, will be attached.

If he is successful in the disposition by sale, or exchange of this property, he will sell eight or ten Tenements, on the same terms; all of which are most eligibly situated, in different parts of the city, on the main street; and except one, which has just undergone a thorough repair, all tenanted out to respectable tenants, punctual in their stipulated payment of rents; and which (he will convince those, inclined to purchase,) do annually yield a revenue, on the price he has affixed on them, of fully 8 per cent. free from all deductions, for the repair of natural decay.

These tenements are all in good order; & what operates greatly in their favor, they are scarcely ever untenanted. Three of them are also insured, and all demandable premiums and quotas fully paid.

My brother, Mr. George Greenhow, residing in Richmond, will, if applied to, give a more accurate description of the above-mentioned property, and negotiate with such as may feel disposed to treat for their purchase.

**LOUDDON LAND FOR SALE.**  
FOR SALE, on Thursday, the 21st of Dec. next, on the premises, the

**TRACT OF LAND,**  
on which the late Judge Jones resided, in Louddon county, with about 25 SLAVES, and the stock of Horses, Cattle and Hogs, on the estate. The tract contains nearly two thousand acres, & possesses many advantages which entitle it to the attention of those who wish to reside in that highly improved part of our country. Two merchant mills are in the neighborhood, one on the adjoining estate, and the other, within two miles. It is 35 miles from Alexandria, and forty from George-Town. The new Turnpike from Alexandria, crosses a corner of the land, and terminates at the nearest merchant mill. The tract is remarkably well watered, Little river passing through the middle of it, and many small streams on each side, emptying into that river. About 50 or 60 acres are already well set with timothy, & at least 300 are capable of being made excellent meadow. It will be divided into tracts of different dimensions, to suit the convenience of purchasers.

A credit of one, two and three years will be allowed; bonds with approved security and a deed of trust on the land, will be required. The Negroes are supposed to be very valuable, some of them being good house servants, and the others principally young men and women. For them the same term of credit will be allowed.

**DISTRICT OF VIRGINIA, TO WIT:**  
It is remembered, that on the third day of October in the thirty-fourth year of the Independence of the United States of America, John Robinson of the said District, hath deposited in this Office, the title of a Book, the right whereof he claims as author, in the words following, to wit: "A collection of the most useful and approved forms of process, judgements and orders used in the County Courts and late District Courts of law in Virginia, also of bonds usually taken in the said Courts, and executions on judgements thereof; records on appeals, and writs of superseas, of proceedings on the arraignment of criminals, and of the entries used on the trials thereof. To which are added various forms of Indictments, &c. in criminal cases. Declarations; & some of the most useful sorts of conveyances; and an index to the whole. By John Robinson, clerk of the Superior Court of Law for Henrico County, and late clerk of the District Court of law, formerly held in the City of Richmond."

And extending the benefits thereof to the arts of designing, engraving, and etching historical and other prints."

**LAND FOR SALE.**—The subscriber offers for sale that valuable estate on which he formerly resided, lying on James River, near the Town of Warmist, in the County of Nelson, lately Amherst. This tract contains nearly two thousand acres. The low grounds are of the most valuable kind, and the highlands immediately adjacent thereto are very fertile and uncommonly level. It might be divided into two plantations to advantage, or continued in one, as might suit the owner. The houses are now and amply sufficient for the comfortable accommodation of a family. A more minute description is deemed unnecessary, as it is presumed the purchaser will view and judge for himself. The subscriber will only observe that the place is very healthy, lies in a fine neighborhood, and commands, perhaps, as many advantages as any other situation that is offered for sale in the state. One fourth of the purchase money will be required on the first of January, when possession will be given; and the balance will be divided into nine equal annual instalments, without any charge of interest if the principal be punctually paid. A large crop of small grain will be sown in good order, and the purchaser may be accommodated with corn &c. sufficient for a year's supply. Letters directed to Buckingham Court-House, or to Westminster, should be soon received and attended to. In my absence, my brother Mr. Joseph C. Cabell will shew the land to any person desirous to purchase.

**SCHELLEWIG, 28th Aug.**  
We observe with pleasure, at Tonsingen and its environs, that the commerce of that city is beginning to revive. There have arrived about fifty American vessels, mostly laden with cargoes estimated at not less than 100,000 rix dollars.

**VIENNA, Sept. 9.**  
M. de Bubna, aid de camp to the Emperor of Austria, arrived yesterday at Schoenbrunn. They speak of a new prolongation of the armistice; all that is certain is, that the Austrian army is not in a condition to recommence hostilities. On this point all travellers from Hungary and Moravia are agreed.

The positions of the French army have undergone little change. The army of Italy occupies Carinthia, Carniola, Styria, and a part of Hungary; it has its head quarters at Raab. The troops of Marshal Macdonald at Gnetz; marshal Oudinot occupies the borders of the Moravia, which separate Hungary from Moravia; the Marshal duke of Dantzic occupies Upper Austria, Salzburg, and the frontiers of the Tyrol; Marshal Massena occupies the western part of Moravia, and Marshal Davoust the eastern. The Bavarian division is at Linz.

**WARSAW, 28th Aug.**  
It is contemplated to maintain a force of 40,000 men from the Polish army, joined to the troops of Galicia, without reckoning the numerous recruits which are found at the depots and who are exercised daily.

All the islands of Zealand, with the exception of Waicheren, are occupied by the troops of his majesty. Marshal Veneuil, with the squadron under his orders, has approached before Zirikzee, to protect the passage of the infantry to the island of Schoouwen. A cutter belonging to the enemy has been taken and carried into Rotterdam.

**PARIS, Sept. 16.**  
According to the last letters from Madrid, the following is the actual position of the French army which covers that capital:—The first corps (Marshal Victor's) is at Toledo; the second, Marshal Soult's, at Placentia; the fourth corps Gen. Sebastiani's, at Aranjuez & the 6th corps, Marshal Ney's, at Salamanca.

On the 10th of October next a flag of truce, expedited by his excellency the minister of the United States near the court of France, will sail from Dieppe for Philadelphia or any other American port which the wind may permit her to enter; and will take on board persons wishing to embark for the U. States.

We understand by the Wasp, the United States schooner, Enterprize, was to sail from the Texel, for America, about the 8th of Oct.

ues to admit the Americans, provided they come with regular certificates of origin, and have not been boarded by English cruisers. The Hamilton has not been boarded on her voyage, and brings all her documents in perfect order: we, therefore, trust there will be no obstacles whatever in the way."

In one of our latest French papers, we find that a vessel taken up by Gen. Armstrong, would sail from Dieppe about the 10th of Oct. for Philadelphia, with despatches & passengers.

American and Colonial produce were very scarce and very high in France. *Alter. Adv.*

**LONDON, September 15.**  
An officer of the staff of our army in Spain, writes from Traxillo, on the 22d August, as follows:

"The war in Spain is nearly terminated; the Spaniards are savages full of superstition and fanaticism; there is nothing to hope from them. We can by no means rely upon them. Cuesta has been deposed, but too late. The general opinion is, that we shall be in England before two months—all the military stores are sent back to Lisbon—the French have 90,000 men, and we have no more than 25,000—we are in want of every thing—whether it be negligence or treason, on the part of the Spanish Commissioners, we have found nothing in a country where we expected to find abundance, we have not even carriages and mules to transport our sick and wounded. I am of opinion, that all this will cure our ministers of the mania of sending expeditions to Spain. There is not an officer or soldier in the army, who does not wish speedily to return from hence. The French do not at all molest us in our retreat. In a few days we shall be in Portugal. This fruitless expedition will have cost our government immense sums—Every thing is frightfully dear, hay costs here 24 pence a pound, and we give 10 pounds of it per day to each horse.

Lord Collingwood was before Toulon on the 6th August. The French fleet is composed of 16 sail of the line, two Russian line of battle ships and three frigates. Four thousand seamen have arrived at Toulon from Rochefort. Rear Admiral Allemand has a command in the squadron.

**LONDON, Oct. 5.**

We received, this morning Dutch papers to the 1st instant, containing news from Vienna to the 30th last. Bonaparte was at that date at Schoenbrunn, and the emperor of Austria at Buda, for which place the Austrian count Bubna had set out on the 15th from Schoenbrunn, with despatches for his master. At his departure he was presented by Bonaparte with a precious stone of great value; from which circumstance it was inferred that the negotiations are drawing to a close. There are, however, many circumstances unfavorable to this supposition. Letters from Strasburgh, of the 22d September, state that the armistice, which expired on the 20th, has been prolonged for a month, with the additional stipulation that hostilities are not to recommence until after six weeks' notice of its expiration. French corps and military stores had passed thro' that city on their way to Austria and the troops, both French and Austrians, were in constant motion. Bonaparte was also busily employed in establishing a line of telegraphs from Strasburgh to Vienna, passing through Ulm and Munich; by which means there would be a complete line of telegraphs between the Austrian and French capitals. As the immediate evacuation of Vienna would probably be one of the conditions of peace, it would seem, from this circumstance, that such an event is not considered as near at hand. The accounts from Paris, in the Dutch papers, are to the 27th last, and from Bayonne to the 9th. Several detachments of troops had lately passed through the latter place, on their way to Spain.

Mr. Perceval, yesterday, kissed hands on his elevation to the post of First Lord of the Treasury, vice the Duke of Portland, by which movement the Right Honorable Gentleman becomes Premier. This was the only appointment announced yesterday at the Levee. Lord Harrowby has not yet received the seals of the Foreign Department, vacated by the Right Honorable George Canning, and it is even said, that they have been refused by Earl Bathurst. Indeed, a man of any pretensions, however slender, if he possesses a particle of pride, must pause before he consents to become a *locum tenens* for Marquis Wellesley. The particular inducement to a calculating mind is the chance that Marquis Wellesley, seeing the sort of head that is put to the ministry, may decline also, in which event, the party put in as a warming pan for his lordship, would probably remain in permanent possession of "The Bed of Roses." Mr. Robert Dundas Saunders, of whose abilities we know nothing but the pathetic and prepared speech which he made for his father, Lord Melville, in the House of Commons, previous to his lordship's trial in Westminster Hall, has set out for Ireland, to pack up his papers, before he makes his debut here as Secretary for the War and Colonial Department, vice Lord Castlereagh. He is expected back on Wednesday next, on which day the Premier will have probably made considerable progress in completing his squad.

From Barcelona we are informed, that this city, which lately contained 120,000 inhabitants, is abandoned by almost every Spaniard, and that the grass is growing in those
